Business 43, Part 7 sets forth special limitations and requirements covering acquisition of goods or services by the University, including independent consultant and independent contractor services, when the transaction involves an employee-vendor relationship, as opposed to an employer-employee relationship. Employer-employee relationships are governed by appropriate personnel rules, including Personnel Policy 82, Conflict of Interest.

It is the University policy (Employee-Vender Policy PPM 523-9) to separate an employee's University and private interests and to safeguard the University and its employees against charges of favoritism in the purchase of goods and service. No purchase of goods or services shall be made from any employee or near relative thereof unless there has been a specific determination that such goods or services are not available from either commercial sources or the University's own facilities.
